# Uniting The World in Global Challenges Action Innovation

Youth Engagement

Resource Mobilization

Capacity Building

Information and Communication Technology

Global Community Building

Games

**GloCha is a multistakeholder partnership** - a collaborative effort of **global citizens** and **youth development** focused **public and private organizations** from all around the world - joining forces in a **globally coordinated** manner to empower **young people** with the necessary knowledge, innovative ideas, and resources to **address global challenges** (like climate change and the depletion of natural resources) **through local action** in their **communities**. We are committed to help achieve the global **Sustainable Development Goals** and the Paris Agreement on **Climate Action** as formulated by the **United Nations**. Our innovative approaches are creating **new opportunities** for **civic engagement, social entrepreneurship** and **intercultural dialogue** for young people and their communities.

## SUSTAINABLE DEVELOPMENT GOALS

GloCha has been initiated by the **International Association for the Advancement of Innovative Approaches to Global Challenges (IAAI)**, a United Nations accredited civil society organization based in Austria. IAAI is now one among several partners of the GloCha partnership. Other **partners** include the Global Youth Development Institute, CliMates, Youthink Center China, Digital Nomads Lesvos, UN Habitat urban economy & youth unit, UNESCO Management of Social Transformation Program, the National Youth Authority of Ghana, Citizens Climate Engagement Network et al.. The **management** of the GloCha partnership is being handled through **GloCha Global Challenges Foundation New York Inc.** which functions as international secretariat, joint resource mobilization mechanism and joint program implementation facilitation body.

INTERNATIONAL ASSOCIATION FOR THE ADVANCEMENT OF INNOVATIVE APPROACHES TO GLOBAL CHALLENGES

GloCha partners work together on the following **programs** for **youth engagement in global challenges action**:

- **The Global Challenges Youth Music Contest #GYMC**
- **Global Challenges Youth Centers** (local level institutional & tech support)
- the **#YouthEntrepreneurship2030** and Agenda2030 Marketplace program
- and the **#GloCha #GiveYouthAChance Call for Resources for Youth Climate Action** launched as an official project of the UN Climate Change conference COP22 in Marrakech in November 2016

At GloCha, we strongly believe that a **better world is possible**, that inspiring and **empowering young people to take action for the local and global common good** will help build a **just, peaceful and sustainable world**.

**A better world is possible! We are unstoppable!**
