

Call for resources for youth climate action

(Draft as of 04 November 2016)

an initiative in the context of
United Nations Climate Change Conference COP22

To the signatories of **The Giving Pledge** <http://glasspockets.org/givingpledge/profiles.html> and other wealth holders around the world

message:

Climate change is big

Young people have great potentials to contribute and play a very important role in the big transition towards low carbon societies and climate change adaptation

young people need resources

sharing of resources is an imperative for humanity to preserve peace and achieve sustainable development in line with Agenda 2030!

Let's start a bold global **movement** at COP22: the **#GiveYouthaChance COP22 Call for Resources for Youth Climate Action** <http://www.glocha.info/index.php/giveyouthachance> (which is **authorized to use the official COP22 project label**) - let us **invest in young people** - empower them to help humanity cope with climate change in the context of Sustainable development Agenda 2030/SDGs.

You are **invited to join this movement**, to answer the call of global youth and competent UN programs and **announce your bold commitment/pledge to invest in youth empowerment for climate action.**

COP22 #GiveYouthaChance Call for Resources for Youth Climate Action campaign is going to be **launched** at an **official side event** of GiveYouthAChance partners on COP22 Young and Future Generations Day. Pledges received during COP22 will be presented a **#GiveYouthaChance Press Conference** on 12th November and at a GiveYouthAChance **show in** COP22 Green zone 18 Nov. The next big stage for announcing pledges will be at ECOSOC Youth Forum 2017 and at #Global Citizen festival 2017 (to be confirmed).

Expressions of Interest and **letters of Support** can be submitted via email to giveyouthachance@glocha.info or through the **online form** <https://goo.gl/forms/ASuJwz4qEI1yVRmx2>

You can also **donate** directly on **#GiveYouthaChance crowdfunding platform** (#GivingTuesday2016)

The signatories of this Call for Resources for youth climate action commit to **work with You** over the coming months towards **open, transparent and participative formulation** and **implementation of social and environmental impact investment opportunities** that will be of a **systemic nature** and **help young people to help the world** in its endeavours **towards sustainability in a changing climate.**
