COBISS.Net Project - Geographic Trends

IZUM and COBISS.Net

- ⌘ **Proven organizational solutions and COBISS software support for the automation of library functions with shared cataloguing within the COBISS.Net network;**
- ⌘ **Proven methodology and software to manage researchers' bibliographies within the COBISS system, and the application for setting up a national research information system (E-CRIS);**
- ⌘ **A variety of training programs for librarians and IT professionals;**
- ⌘ **Biennial international COBISS conferences and specific workshops.**

IZUM and COBISS.Net

Based on the establishment of COBISS.Net and the free exchange of bibliographic records, created in library information systems of Bosnia and Herzegovina, Bulgaria, Montenegro, Macedonia, Serbia and Slovenia, as well as on the agreements with the line ministries of certain countries, IZUM acts as:

the regional centre for the development of integrated library systems and current research information systems
