3 Milan Food Paradoxes & City of LA's Sustainable City pLAn

Food Loss & Hunger

1

1B people are hungry yet 1/3 of food is lost pre-market or wasted after it gets to consumers.

Agriculture causes/cures pollution

2

Agriculture can cure pollution, yet industrial Ag causes water, soil and air pollution.

Malnutrition & Obesity

3

For every 1 hungry person, 2 are obese.

Environment

Waste & Landfills

#FreeTheFood – DIVERTING edibles & composting food scraps from community & school cafeterias, PLUS local restaurants, food processing and grocery stores.

Economy

Prosperity & Green Jobs

#FeedTheSoil – BOOSTING green jobs in local compost & Bokashi projects at schools & community gardens.

Equity

Urban Ecosystem

Environmental Justice

Livable Neighborhoods

#FeedThePeople – GROWING healthy garden-to-table school & community projects, introducing streetside edible micro-gardens and fruit trees.
